### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy> )

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<b>Add cluster analysis results. The given results are not enough to provide clear cut conclusion. Sentence formation still required more revisions. The English language has to be improved more to meet the quality of the journal. The reference section has to be checked for the journal format.</b>	Added cluster tables 5 & 6 & reference section checked in journal format
<b><u>Minor</u></b> REVISION comments	Provide ANOVA results for the AUGUMENTED design.	Included table No.2
<b><u>Optional/General</u></b> comments	Provide statements supporting the results has to be written correct. Check the whole article and correct the grammar mistakes and sentence flaws.	Provided in conclusion part

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
