

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Plant &amp; Soil Science</a>
Manuscript Number:	Ms_IJPSS_84575
Title of the Manuscript:	Diversity of powdery mildew mycoparasite <i>Ampelomyces quisqualis</i> under natural ecosystem and its molecular characterization
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy> )

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	DNA isolations should be changed to Nucleic acid isolation (TNA). The method used in TNA isolation isolates both RNA and DNA. Therefore, no extra application was made for Pure DNA. Please edit this part.  You should specify that your isolates are red in color in the phylogenetic tree. Confidence values below 90 are generally not shown in the dendrogram created with the ITS gene region. I suggest you revise it. You can also make this tree look stronger by adding more isolates from more NCBI.	Correction made  Done revision
<b><u>Minor</u></b> REVISION comments	There are minor errors in English spelling. It should be re-read and edited from the beginning.	Done
<b><u>Optional/General</u></b> comments	A good research paper has been written.	

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
