(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments		
<b><u>Minor</u></b> REVISION comments	<p>In the first, this manuscript needs to be revised before its publication Current Journal of International Journal of Plant &amp; Soil Science. First of all, I'm recommend a revision of the work by a native English speaking reviewer since some terms present in this manuscript are awkward. The abstract its necessary been more details and been specific about are found results and explain more about directions of work.</p> <p>In addition, some sections are difficult to understand and can be misleading. Some paragraphs are too long (some of them are more 3 lines long, mentioned this section supply response). This necessary major revision the literature with literature more actual. The authors should consider providing schematics concerning the experimental section. I'm think included one Figure will help the reader to better visualize the experimental work. The section Data base and methodology its necessary more explication and details about statistical method realized.</p>	<p>Revised</p> <p>Checked</p>
<b><u>Optional/General</u></b> comments	<p>The article content is suitable for publication in Current Journal of International Journal of Plant &amp; Soil Science if all considerations above in the manuscript for revision for realized.</p>	<p>Noted</p>

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
