PART 1: Review Comments

	Reviewer's comment	Author's comment(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> The title is appropriate for the work carried out The introduction was relevant to the topic M&M: <ul style="list-style-type: none"> The dosage of insecticide used in the experiment need to be mentioned R&D: <ul style="list-style-type: none"> The results and discussion need to elaborate and add more of literatures related to the work There were volume of works carried out on the particular topic with the same insect pests and microbial control strategies. Hence, the discussion may be elaborated with the already published works and justify with the present works results. The figure is of poor quality and need to be revised or deleted as already the table has the relevant data In table 1, the cumulative mean should be worked out for first spray and second spray separately and then pooled Per cent reduction over control treatment may be worked out for providing better understanding about the efficacy of different components In Table 2, the term cost of yield is not relevant, change that into market price as Rs.750/q In the Table 2, it was mentioned that neem oil treatment cost was Rs.4425 which is second highest among the components used. Justify 	<p>Thank you sir / madam for your valuable comments . We agreed with you.</p> <p>Title, introduction, is changed</p> <p>Dosage is added.</p> <p>Literature added.</p> <p>Discussion is elaborated.</p> <p>Figure is Removed.</p> <p>Means are added individually for both first and second .</p> <p>We worked out research work on percent reduction.</p> <p>Neem oil cost is 2112 .</p>
Minor REVISION comments		
Optional/General comments	General but important comments: <ul style="list-style-type: none"> The language is poor and need to revise completely The zoological names should be noted with italic letters, the punctuation used in the text need to be checked, table format, texts has to be checked for better alignment The manuscript is written casually and need for major revision 	Our level best we made changes

PART 2:

	Reviewer's comment	Author's comment(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	No
