

Review Form 1.6

Journal Name:	International Journal of Research and Reports in Hematology
Manuscript Number:	Ms_IJR2H_85817
Title of the Manuscript:	The Impact of Citrus aurantium Fruit Juice on Bodyweight and Haematological Parameters of Wistar Rats
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijr2h.com/index.php/IJR2H/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Reduce on the number of haematology tables. The discussion needs to be improved on. I have put the comments in track changes. Some important details were left out the manuscript. They need to be included. The conclusion should come from the study outcomes and not speculations.	The haematology tables are necessary as the work borders on the effect of the Citrus aurantium fruit juice on the haematological parameters. The information has been updated and the conclusion properly written.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	It would have been good if the Author had used extract instead of just the juice.	We used juice because the traditional users make use of the juice and not the extract

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	No
