### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijrrgy.com/index.php/IJRRGY/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The research is good and the idea is new	
<b>Minor</b> REVISION comments	Please make tables in statistics about the relationships between the factors that lead to many problems for the mother and the child, for example, the relationship between age and health problems for the mother, such as high blood pressure and an increase in the rate of placental abruption.	This analysis would have been helpful but it is beyond us at this moment. Thank you
<b>Optional/General</b> comments	Thanks to the researcher for his effort	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
