PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Add more write up in the method and introduction. In the body write more about Anaemia and the attacks the children had. Adding more write up will make your work more richer being one Topuc i have not seen before. is a nice one. put more information.	1. It is a scientific article which is different from a dissertation and has its own relative requirements in this respect. 2. All these aspects will be dealt with in the next manuscript, which is currently being drafted to avoid the voluminous nature of the text
Minor REVISION comments	2 table is fine in the result section but you can add table S for the parents status in kids used in relation to d environment and their health. Secondly you can add charts and graphs to the 2 tables in d result section.	1. These aspects are the subject of further research 2. The study focuses on parents' experience of traditional treatment of anaemia in children: qualitative research
Optional/General comments	A unique research. Well done and thank you.	Thank you very much for your comments

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
