

Review Form 1.6

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_ IJTDH_83930
Title of the Manuscript:	Progress related in genetic research on Kawasaki disease
Type of the Article	review

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript needs to be put into format for publication. There are some sudden changes in font and font size. The sections have some symbols that I assume represent numbers and these need to be changed to numerals. If this is a review article then I am not sure having sections labelled as 'materials and methods' and 'results' is the best organization.	Noted and corrected
<u>Minor</u> REVISION comments	On page 2, correct 'Resuit' to 'Results' or change to a review article type format.	Noted
<u>Optional/General</u> comments	The review covers factors associated with the challenging Kawasaki disease and summarizes developments associated with contributing and genetic factors. The text is well written and there are many (50) useful references. The review appears up to date and informative.	Noted and corrected

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
