General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijtdh.com/index.php/IJTDH/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	It seems to me a very well structured manuscript, which demonstrate the exhaustive multidisciplinary field work carried out by authors over a long time of dedication to the discipline. What is IPI or STD? Write the clear meaning where it is used for the first time. Misspellings of the names of the parasite: It is "Strongyloides stercoralis" or "S. stercoraries", and it should be "Strongyloides stercoralis" (applies to the whole work) replace "helminths" for "helminthes"	Noted Done revision
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
