	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<div><div>➤ The author can mention key words in Abstract</div><div>➤ The author can mention superscript for each references</div><div>➤ The author can mention recommendation for the study</div><div>➤ The author can mention source of support for the study</div><div>➤ The author can be mention regarding acknowledgment</div><div>➤ The author can mention patient consent</div><div>➤ Kindly take care about alignment, grammar and spelling in this manuscript</div></div>	<div><div>1. Thank you for your comments. Keywords were added after the abstract <b>DONE</b></div><div>2. Not clear for us. However, for the references cited in the text, we followed the guideline instructions of this journal “IJTDH” where the citation should be: “ In the text, citations should be indicated by the reference number in brackets [3].”</div><div>3. Recommendation was found at the end of both the manuscript as well as of the abstract <b>DONE</b></div><div>4. As this study was not supported by any funding agencies, therefore, we did not raise this issue and clearly clarified at the end of the manuscript that there was <b>no funded DONE</b></div><div>5. Acknowledgment was mentioned at the end of the study <b>DONE</b></div><div>6. I think the reviewer asked for participant consent. Yes, the authors have asked all the medical students for ethical consent to be enrolled in the study. <b>DONE</b></div><div><b>alignment, grammar, and spelling DONE</b></div></div>
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
