### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Please describe about MIS-C, prediction for IVIG resistance and additional treatment.	Sorry! I don't understand the "MIS-C" means what?
<b>Minor</b> REVISION comments	In page 1, Fuzuo Kawasaki→Tomisaku Kawasaki In page 3, Please describe fever type. Section 3.1.2 Incomplete Kawasaki disease, You showed `the Z score of left anterior descending branch or right coronary artery branch is not sensitive, it has high specificity for diagnosis.` Please show actual number. In page 5, In section 6.1 initial treatment, What is C ball? In page 6, What is Wright's syndrome? In page 7, In section 6.2.6 interleukin receptor blockers Please mention about references. In page 8, In section 8 Do you use aspirin for patients in chronic phase if he or she showed impairment of liver function? In page 9, In section 8 clinical results, Why did you show the Shaanxi Provincial people's Hospital data?	I have revised it according to your opinion. About the question that use aspirin for patients in chronic phase if he or she showed impairment of liver function, I have no idea.  In page 9, In section 8 clinical results, show the Shaanxi Provincial people's Hospital data in order to indicate the recurrence of Kawasaki disease clearly.
<b>Optional/General</b> comments	None
