### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>The title of the study should be remodified as a reviewed paper</b> <b>Abstract: No aim of the study and the missing link the study is to address.</b> <b>Poor introduction before the main body of study</b> <b>Poor numbering</b> <b>No description of our imaging modality for the diagnosis of the Kawasaki disease.</b> <b>The study should be structured as a review research with section of “discussion” to be more convincing that the study will take care of the missing link of other studies and knowledge.</b>	<b>I agree with you.</b> The aim of the study is to improve clinicians' understanding of Kawasaki disease and reduce misdiagnosis possible. Actually, I don't understand ' <b>imaging modality</b> 's meaning?
<b>Minor</b> REVISION comments	Check typographic errors and punctuations	Ok
<b>Optional/General</b> comments	A good and detailed study for corrections	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	No .
