Type of the Article	Research

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijtdh.com/index.php/IJTDH/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Consistency issue whether authors add N before amounts throughout the whole text. Table 1 and 4 check the symbol *which is missing in the table. Authors represent statistically significant as note or other use. Six references highlighted by yellow color need to be checked and WHO 2014 needs to be cited in detail within the reference.	I have made corrections by replacing the 'N' with the Nigeria 'Naira' currency symbol (₦). I have made corrections to Table 1 and 4 by expunging the footnotes '* Statistically significant'. Please note that I could not highlight this correction with yellow as they have been erased. I have made corrections to the six references highlighted and the 'WHO 2014' in-citation has been cited in detail within the reference.
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
