

Review Form 1.6

Journal Name:	International Neuropsychiatric Disease Journal
Manuscript Number:	Ms_INDJ_87797
Title of the Manuscript:	CEREBRAL AUTOREGULATION AND CARDIOVASCULAR PHYSIOLOGY DYSFUNCTION IN TRAUMATIC BRAIN INJURY CASES: A BRIEF REVIEW
Type of the Article	Review Article

General guideline for Peer Review process:

This journal’s peer review policy states that **NO** manuscript should be rejected only on the basis of ‘**lack of Novelty**’, provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Interesting paper looking at cardiac markers and autoregulation disruption following neurotrauma. Several key references are lacking and must be included. First, must address calcium channels PMID: 29951646, second need to address PKC PMID: 25301233, finally need to address markers for repeat injury PMID: 23335911.</p> <p>If the above references included and paper broadened accordingly, could be of interest to the general audience.</p>	<p>We agree with reviewers about the lack of some key references and have added them to our discussion. We have revised our articles regarding calcium channels (P5 L170-202), PKC (P5 L204-209), and biomarkers for repetitive injury (P7 L285-298).</p>
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	There is no ethical issue in this manuscript
