PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper studies the anti-cirrhotic effect of aqueous extract of the leaves of <i>Mearua angolensis</i> on induced cirrhosis on gross appearance of liver of wistar rats. Liver Cirrhosis are becoming a serious problem worldwide, being responsible for a huge amount of death. The bead bean tree <i>Mearua angolensis</i> is used in indigenous systems of medicine for the treatment of liver disease. The author observed that with treatment, groups have liver with significant improvement.	Okay
Minor REVISION comments	Article contains minor punctual inaccuracy.	Done
Optional/General comments	The topic is timely and will be of interest to the readers of the journal. There is a real need for a full characterization of Mearua angolensis plant species and for the development and application of technologies for the production of Mearua angolensis-based drug.	Okay

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
