

SDI Review Form 1.6

Journal Name:	International Research Journal of Oncology
Manuscript Number:	Ms_IRJO_62917
Title of the Manuscript:	Histopathological Effect of Methanolic Leaf Extract of Maerua angolensis on Thioacetamide Induced Liver Cirrhosis of Wistar Rats.
Type of the Article	Research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. Modify title as suggested in text. 2. Add histopathology in methods and results. 3. Re-write abstract conclusion as per objectives. 4. Re-write results and discussion with the help of English expert. 5. Must mention that the test material is helpful in downregulation of cirrhosis development. (It may not reverse cirrhosis once it is developed because fibrosis reversion is not possible)	Corrected
Minor REVISION comments	Minor language corrections	Done
Optional/General comments	May be considered for publication after revision	Okay

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details) Yes, use of animals. Wistar rats can not be used without permission (like Institute Animal Ethics Committee, IAEC in India) of the designated authority; if permitted, it should be mentioned in the methods at proper place.
