Typographical errors do occur here and there. 3. Texts highlighted in yellow should be re-written using proper words. 4. Texts highlighted in red are to be deleted. 5. Use of words like in our study is not desirable. Instead, words like in the present study or present investigation could be used. 6. Some references are found missing.	Yes, you are correct.  Done. Done. Done. Yes, you are correct, I corrected all comments.  Corrected.
<b>Optional/General</b> comments	Plenty of works have already be done elsewhere in this plant species as is evident from the references used. But it may be a first time study in Egypt and Saudi Arabia.	Thanks a lot for your help and for your important comments.
