	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Malaria is dominant problem present in many countries specially Asia. Shift in the prevalence from rural to periurban and urban area give opportunity to find the factors behind. Very wisely conducted study. Still it needs some corrections---</p> <p>Introduction to end with specifying aim and objective of the study.</p> <p>Specify what type of consent was taken and who had given the consent (mother /father/any relative accompanying the child) since the study involve invasive method and children .</p> <p>Correction in exclusion criteria. Sample size calculation. Time period of study to be mentioned.</p> <p>Below the table kindly mention the full forms of these abbreviations.</p> <p>Specify the limitations of the study.</p> <p>Number the references.</p>	<p>Aim added</p> <p>Consent type included</p> <p>Exclusion criteria edited Sample size noted Study period included</p> <p>Abbreviations defined</p> <p>Limitation of the study has been added</p>
Minor REVISION comments	Nil	
Optional/General comments	Nil
