Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The manuscript have capture a very important topic, and it is really educative. However, some suggestions and corrections were made in the reviewed manuscript. For all the citations used in the manuscript, there should be no full stop before the bracket. The full stop always comes after the bracket e.g., "The infant microbiome contributes to his/her future health and its assembly is determined by maternal– offspring exchanges of microbiota [8]."</p> <p>I will also suggest that the author should subject the manuscript to grammerly software to correct all the grammer issues associated with the manuscript.</p> <p>I also, suggest the author should also explain the microbial flora of the skin and mucous membrane just like he explain the microbial flora of the mouth/oral cavity, respiratory tract, stomach and intestine, and vagina in the manuscript.</p> <p>Standard method of writing a doi number of an article should be used against all the doi used in the reference section. Detail explanation will be found in the reviewed manuscript.</p>	<p>Dear Professor, Than you very much for your valuable comment and suggestion.</p> <p>I am sure that it all will make the manuscript better.</p> <p>I will do the correction just as your instruction.</p> <p>Dear professor, thank you very much for your valuable input</p> <p>Dear professor, than you for your suggestion. I will add some about the skin and mucous membrane microflora</p> <p>Dear professor, i will add the doi to each reference, whenever it is available</p>
