This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	<p>The article is extremely up-to-date and clinically applicable, mostly in targeting therapy in oncology. The Role of Balance Effect of the TGF-<math>\beta</math> INDUSED SIGNALLING PATHWAYS IN NORMAL AND TUMOR CELLS IS OF UTMOST IMPORTANCE AS THEY MALIGNANCIES. The authors of the publication have written and presented the theme very well, with a broad overview, including 36 author. The figures presented are comprehensive and very well visualize the text to the article that does not require adjustments. I think there is high scientific value and should be published without corrections in the magazine.</p>	Okay

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
