PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | The study carried out has scientific relevance, so I do not consider it to have major observations. | |
| Minor REVISION comments | Correct the title: is it PREVALANCE? or PREVALENCE I suggest removing Chart 2: Occupation wise distribution of healthcare workers, since this information is included in the tables. When abbreviations are used, only one abbreviation (personal protective equipment (PPE)) is required. | Corrected the title Have worked on most of the suggestions. Removed chart 2. |
| Optional/General comments | I congratulate the authors for the concern of personnel related to hospital work, which allows them to provide alternatives for care and protection. | Thank you for the valuable comments. |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) | |
