PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Interesting paper summarizing the literature on cerebral edema in context of pediatric DKA. Literature supports that fluid resuscitation is not a significant contributor.</p> <ul style="list-style-type: none">• Address how fluid balance should be considered for other aetiologies PMID: 27657585• Discuss the role of the ketogenic diet as a potential for decreasing edema PMID: 26519659• Highlight how prevention is best strategy PMID: 27857997 <p>If the above is addressed, the paper would be of interest to a wider audience.</p>	<p>These recommendation has been included in the paragraphs before the conclusion and also well sited in the reference section.</p> <p>Other corrections as per the second reviewer were also amended.</p>
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
