

Review Form 1.6

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_85120
Title of the Manuscript:	The role of interleukin-6 in anemia of patients with chronic kidney disease, in pre-dialysis stage
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Other inflammatory factors have also been linked to anemia (eg TNF α). Please mention them in the introduction. For sex and age please describe statistical description, without „p”. The statistical significance is noted with „p”, not with „P”. Please change it. From table 1 and table 2 explain what P1, P2, P3 represent. If it is statistically significant, please describe which test you applied? Has a single analysis been done? Please specify. If so, the comparative statistical analysis should include checking whether the groups have a symmetrical distribution (skewness and kurtosis test), and only then can statistical tests be applied depending on the distribution.	Revised
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
