PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In introduction a line about the rationale of the study may be added. Study enrolled 350 participants but results are presented of 347 only, explain the lost participants. How was the sample size calculated? Among reasons of non-compliance only 280 response, explain missing responses. Sociodemographic data table misses ethnicity and data about husband. Check the references and give them in Vancouver format.	Noted
Minor REVISION comments	Language corrections are suggested Repetition of tables in discussion can be avoided	Corrected
Optional/General comments	Comparison of knowledge with ethnicity may be shown	Noted

PART 2:
