PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Introduction: the author wrote a good introduction. Methodology: There are no clear inclusion r exclusion criteria, I think the author must clear the criteria of population. The author did not mention if the participants had regular follow-ups or not. Why does the author include religion? Does it make a difference? Results: looks Good Discussion: the author needs to add more reference Reference: some references are not clear . e. g 1, 2. The author needs to rewrite the reference according to journal guidelines .	It was corrected in the manuscript sir It was a retrospective study, but the patients were followed up sir Religion was removed sir, it was not necessary The references were corrected sir
Minor REVISION comments	Needs English editing .	
Optional/General comments
