Minor REVISION comments	<p>I have noticed some wrong calculated percentage in the article. For example on the beginning of the "Result" in the second row, 80% and 10% are not 100%. In the Table 1 that is correctly written (80% and 20%).</p> <p>I really liked everything else in the article and it seems that the article was written by someone very experienced.</p> <p>Congratulations to the author on a well-done study.</p>	Ok
