PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	<ol style="list-style-type: none">1. Use of the word prevalence is not appropriate as prevalence is for disease outcomes. Better term would be proportion2. It would be of interest in the analysis to do association of your variables with level of knowledge so that public health teams know exactly who and where to target interventions	Noted
<u>Optional/General</u> comments	It is a great study of massive importance in our continent as diarrhea is still the 2 nd biggest killer of children under 5 worldwide. A well-researched, executed and written work	Noted

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Are there ethical issues in this manuscript?</u>	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
