

## Review Form 1.6

Journal Name:	<a href="#">Journal of Cancer and Tumor International</a>
Manuscript Number:	Ms_JCTI_80938
Title of the Manuscript:	No Scar as an Indication of Perfect Wound Healing, Ugly Scar as Imperfect Wound Healing, and Cancer as Failed Wound Healing
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljcti.com/index.php/JCTI/editorial-policy> )

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	ref. 11 is ill-written; I do not find it in Medline, neither "Nov Rev Sci"[Journal]. ref. 6. "McGraw-Hill Education"	Ref. 11: Nov Rev Sci is incorrect. This must be the reference 10, and the journal is Nov Res Sci which stand for Novel Research in Science. Ref. 6: This is a chapter of a book published by the Education division of McGraw-Hill.
<b>Optional/General</b> comments	An interesting reading; imperfect healing and scarring rather than regeneration remains unexplained.	We think healing and regeneration are the same biological process to repair the damaged portion. Imperfect healing refers to healing generating visible scar, namely scarring.

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	There are no ethical issues involved.
