PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article is interesting and a good review. It will significantly contribute to the agri-based industries. However, there are lots of writing problems. The use of English needs improvement. The meaning of several sentences is not clear. Carefully check the meaning of each sentence. Major issues of existing technologies and future research scopes need to be discussed in more detail. The conclusion is very simple. It should be to the point and should induce further research interest to the researchers.	First of all, thank you for your valuable comments. We have rewritten the conclusion. We have further detailed this section and added suggestions that could be the subject of future research. We checked each sentence in the manuscript and made any necessary corrections.
