

Review Form 1.6

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_84725
Title of the Manuscript:	Model Application That Monitors And Evaluates The Economic Viability And Cost-Effectiveness Of Modular Gas Processing Plants For Gas Utilization In Field-X.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljerr.com/index.php/JERR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The Paper is well written and the author has extensively worked well.	The reviewer's comment is accepted.
Minor REVISION comments	Grammar should be revised Follow journal guidelines to format the paper	The reviewer's comment has been effectively handled by the authors.
Optional/General comments	Add the following references: Mignacca B, Locatelli G. Modular circular economy in energy infrastructure projects: Enabling factors and barriers. Journal of Management in Engineering. 2021 Sep 1;37(5):04021053. Baldea M, Edgar TF, Stanley BL, Kiss AA. Modular manufacturing processes: Status, challenges, and opportunities. AIChE journal. 2017 Oct;63(10):4262-72.	The references has been added to the manuscript references as recommended by the reviewer.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
