

## Review Form 1.6

Journal Name:	<a href="#">Journal of Engineering Research and Reports</a>
Manuscript Number:	Ms_JERR_84811
Title of the Manuscript:	ANALYSIS OF MECHANICAL PROPERTIES OF LONG-SPAN REINFORCED CONCRETE COMPOSITE SLABS UNDER DIFFERENT SPLICING METHODS
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljerr.com/index.php/JERR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"><li>1. The types A and B are almost equivalent in this study, but they are not prestressed components. According the conclusions, what is the minimum and maximum spans for types A and B to be equivalent, respectively ? It is recommended to give the values based on this case.</li><li>2. In section 1, "our company" should be changed to be the project name.</li><li>3. There are some spelling mistakes or missing, such as "differentsplicingmethods", "<math>f_{t,r}</math> and <math>f_{c,r}</math> respectively represent the representative value of concrete uniaxial tensile strength".</li><li>4. The variables, such as Point A, <math>d_t</math> and <math>d_c</math>, should be written in italic.</li><li>5. Some of the references are incomplete.</li></ol>	<ol style="list-style-type: none"><li>1. There are relevant provisions in some engineering standard provisions in China, so it is not necessary to list them.</li><li>2. "our company" has been changed to be the project name.</li><li>3. There spelling mistakes or missing in the manuscript has been improved.</li><li>4. The variables has been written in italic, and the expression conforms to international norms.</li><li>5. References are complete.</li></ol>
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
