### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljerr.com/index.php/JERR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	No information on quality assurance and quality control. Results should be merged with discussion. The units mg/L or mg/Kg should be used. Mean values were calculated in the table, hence mean values should be used and not average.	<a href="#">Quality assurance and control information added.</a> <a href="#">Results were separated from discussion for clarity purpose.</a> <a href="#">Mg/L adopted.</a> <a href="#">Mean values used.</a>
<b>Optional/General</b> comments	The year of publication of NIS differed from that of the reference. Also Baba and Tayfur, 2011 was not cited in the text. All these corrections were indicated in the manuscript.	<a href="#">Noted and duly addressed</a>

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<a href="#">(If yes, Kindly please write down the ethical issues here in details)</a>
