Compulsory REVISION comments	<ol style="list-style-type: none">1- The Study design needs further elaboration. For example, it is a quantitative and descriptive-survey method.2- In the last paragraph of the introduction to planning and action, it is necessary to further explain these two activities, what plan and finally what action?3- The methodology section does not provide a detailed reference to the study population and sample size, this section requires fundamental changes. Like a detailed description of how to collect information.....4- In the discussion and conclusion section, it is necessary to state the limitations of the study and also to make suggestions for future research accordingly.	We already fixed the problem in the journal revision
