	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The reference was not alphabetical arranged.	
Minor REVISION comments	Figure 8 text overlapping with the coordinate in page 9 The coordinate should be removed	The reviewers indicated that the references be arranged in alphabetical order, this cannot be done because the references are numbered to reflect the citations in the text. Secondly, the only issue raised was to remove the geographical coordinates on Figure 8a, page 9. This can be done by your editorial team since I don't have the words document to do it. No other issues were raised in the manuscript.
Optional/General comments
