PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Abstract must be more details with results improvement and a coparison with others researches	Thank you very much for the commends. We put more detail about the methodology. In the results, we think the information is enough and when readers would like to know more results, they can come up to the full paper.
Minor REVISION comments	Introduction must have modern studies and the objects must be scintefic	Thank you very much. We have restructure of introduction and input more references.
Optional/General comments	The results must be more details with discutions	Thank you very much for the commends. We think that because discussion involve results, so discussion of the comparison between two methods in this manuscript is enough.

PART 2:

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
