PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<ul style="list-style-type: none">- It is better to add justification – why only female rats were used in this study- Need to cite all references properly – From [1][2] to [1,2].- Conclusion can be rephrased and add some more points specific to this present study -- Table 2,4 and 6 – Need to be cited in text – where these tables are matched with the part discussed.	<ul style="list-style-type: none">-In another part of the project, reproductive hormones were measured, so the authors needed a specific sex of rats to avoid fluctuation in hormone levels due to differences in rat sex.- All references have been cited properly.- Conclusion has been rephrased.-Tables 2, 4 and 6 have been cited in the text.
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	No ethical issues.
