PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. The abstract should be revised. The authors gave the definition of disease which is unnecessary, they should point why this case is different to present as a case report. 2. What was the CBC, Biochemistry profile, LDH at admission of the patient? Did the patient have B symptoms? 3. Which regimen did the patient get as a chemotherapy? 4. Please include the staging with CT, bone marrow biopsy/aspirate results if any? 5. Any results of Hepatitis C serology should be included. 6. Please discuss the molecular findings in splenic marginal zone lymphoma in discussion part.	Revised Done Amended
Minor REVISION comments	1. References 3 and 12 are not related with the manuscript please recheck.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
