### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<ol style="list-style-type: none"><li>1. The title of the article is too long. It needs to be revised.</li><li>2. The history of patient has to be more elaborate i.e. What was the type of fracture to begin with? When was the primary surgery done? When did he develop infection? When did the second surgery happen? What was the protocol followed after first surgery? Whether any co morbidities were present? Etc.</li></ol>	Comment accepted and considered
<b><u>Minor</u></b> REVISION comments	<ol style="list-style-type: none"><li>1. There are grammatical mistakes in the article which need correction.</li><li>2. The incidence rate should be backed up with proper references</li><li>3. The references used are very old..</li></ol>	Okay
<b><u>Optional/General</u></b> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
