### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"><li>1. What do the authors mean when they say "To be able to personally use the 3D printer at home, the patient needs to be given a special training. Even so, he/she might not be able to identify and correct the deformities in the design itself which could highly likely alter the bioavailability and other aspects of drug.[30]". If this is what they have understood of "personalised medicine" they are most likely on the wrong track.</li><li>2. It was not possible to relate the main objective of the manuscript to COVID-pandemic. Furthermore; the authors seem to focused on not one main topic but several unrelated topics.</li></ol>	As per the reviewer suggestion, corrections has been done.
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"><li>1) Abbreviations should be checked to consistant in the text: e.g. 3D printing or 3DP?
