### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The questionnaire adopted was not validated before utilizing it in pilot study. The originals authors of questionnaire adopted in this study were acknowledged. Also, I thought the author will have a cardiopulmonary Physiotherapist as a co-author because, telerehabilitation and other physical activities are core skills of a Physiotherapist. Referring to Physiotherapist as other healthcare professionals is not pleasant.</p> <p>Table 3 ,4 and 6 not stratified into each health professionals, so the tables appear clumsy and not explanatory enough.</p> <p>However, this is good research and publishable if the above suggestions are considered.</p>	Comment accepted and considered
<b>Minor</b> REVISION comments	<p>This can be quantitative research?</p> <p>Version of SPSS used not stated.</p>	Okay
<b>Optional/General</b> comments	<p>The objectives were addressed considering the conclusion of this study.</p>	Okay

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
