

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_79167
Title of the Manuscript:	Nutritional Composition, Mineral analysis and Sensory Evaluation of Cake and Chocolate with Moringa oleifera Leaf Powder for Anaemic Adolescent's
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The results must be compared with each other and at least an explanation of the fact that there is no direct correlation between the percentage of additional and the increase of the analysed chemical composition elements must be tried. The conclusions do not require a repetition of the numbers in the paper but of the general conclusions that emerge.	Rectified
<u>Minor</u> REVISION comments	I think it would be necessary to present the chemical composition of the plant used at least for the parameters taken into account in the paper.	Rectified
<u>Optional/General</u> comments	The bibliography has many titles and many even recent ones but they should be ordered (for example alphabetically).	Rectified

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	There is no ethical issues in the manuscript
