PART 1: Review Comments

| | Reviewer’s comment | Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|--|
| Compulsory REVISION comments | | |
| Minor REVISION comments | <p>Abstract: in conclusion say the good or bad degree of awareness and practice about the use of contact lens in your study group.</p> <p>Key words: check them</p> <p>Introduction: Make an orderly account of the detailed information, for example talking about ametropia, ocular surface, use of contact lenses (epidemiology, cost, advantages, disadvantages, proper use, etc.)</p> <p>Methods: The authors do not specify the period of time in which the study was carried out.</p> <p>Results: Table 1 and 6 do not repeat college (dentistry, pharmacy, etc.). In table 2, highlight in the text the most important of the results, since they are presented in full in the table. Do the same in table 3.</p> <p>Discussion: Be more specific and orderly when presenting and discussing your findings. Try not to repeat the word study, place the main author, for example. Highlight the result of the main objective of your research , awareness and practice about CL amongst students of the Health Faculty at Jazan University During the COVID-19 Pandemic.</p> | <p>Dear Editor· Journal of Pharmaceutical Research International Thank you for your consideration of our manuscript. We have reviewed the reviewers' comments and have thoroughly revised the manuscript. We found the comments helpful and believe my revised manuscript represents a significant improvement over the initial submission. In response to the suggestions, I made the following changes to address your valuable comments.</p> <p>Response reviewer</p> <p>Dear reviewer, Thank you for reviewing our manuscript.
