PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript has followed all the required points. The Introduction needs to be reviewed and added - There are drugs and drugs, some of them are required for faster recovery after practice or competition and other help athletes to get faster to higher results and achievements, but ruin their health and the authors should pay more attention on them and give more information in the introduction.	Added in manuscript.
Minor REVISION comments	The Corelation method of Person is not necessary and does not give useful information.	Added in manuscript.
Optional/General comments	In my opinion the manuscript is a subject of well-known problem and here would be more interesting to disclose ways in which athletes to be more familiar with the drugs and the way of usage.	Added in manuscript.

PART 2:
