Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The title does not need a dot at the end of the sentence</p> <p>In Abstract: - too much background; Methodology: type of study, patient inclusion criteria, statistical analysis, level of significance; Conclusion: adjusted to the title of the article.</p> <p>In Introduction: what does the "..." sign in the text mean? Has the use of T-PRF and DFDBA been declared safe for the human body? This reason needs to be written in the introduction.</p> <p>In Discussion: it is necessary to explain the results of the research obtained, why the results are better using a combination of T-prf and DFDBA, explain your arguments, and confirm your research with previous studies.</p> <p>References: It should be written consistently including the name of the journal, the use of the month in the volume of the journal, the use of http or DOI links.</p>	Comment accepted and considered
Minor REVISION comments	<p>Check the grammar, sentence structure, and use of punctuation</p>	Grammatical mistakes are rectified
Optional/General comments	<p>follow the author guidelines in your journal</p> <p>Need to check the journal below:</p> <p>J Indian Soc Periodontol. 2015 Jan-Feb; 19(1): 56–60.</p> <p>Acta Odontol Scand 2016;74(1):36-43</p>	Noted
