### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	It's a good article with some minor revised	Yes sir
<b>Minor</b> REVISION comments	Using full description instead CBCT in first sentence Age group were different, 20 to 40 (20 years), but it's 40 years in next group, so it's weak in impact when compare two group	Sir, I have done the corrections regarding CBCT as Cone beam computed tomography, suggested by you. But regarding the age group it is not possible to correct age group years at this time because the statistical analysis of this study and results was already obtained.
<b>Optional/General</b> comments	Some grammar mistake, fonts & some overlap in sentence	Sir, I have done the corrections.

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	Sir, there are no ethical issues in our study.
