

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_80356
Title of the Manuscript:	Potential long-term health consequences of covid-19
Type of the Article	Review

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript is a review article of the long-term health effects of COVID-19. The article is poorly written, and full of grammatical mistakes. I highlighted some of them only in the abstract. Similar mistakes are there throughout the whole manuscript. There are hardly any new information in the manuscript. The authors are encouraged to review published original and review articles on the topic, and then re-submit their manuscript. A good option would be to conduct a systematic review instead of just a literature review, which is often biased.	Noted Revised
<u>Minor</u> REVISION comments	Needs a thorough literature review using a PRISMA model. References do not follow a specific standard format.	
<u>Optional/General</u> comments	The manuscript is not acceptable in the current format.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
