

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_81759
Title of the Manuscript:	Effects of surgical changes in digestive system on the pharmacokinetic behaviors of orally administered drugs
Type of the Article	Review

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The subject of the article is extremely important for understanding the organic changes that occur after bariatric surgery. The authors present an interesting, albeit summarized, review of post-bariatric surgery changes. I understand that they should differentiate the changes according to the technique used. It is not clear whether the postoperative period can modify this initial picture, restoring the physiological functions of the intestinal segments. The references are a little outdated and other more current articles could reduce the doubts previously presented.	Done
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	No
