**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments		
<b><u>Minor</u></b> REVISION comments	<p>Congratulations to the authors for the research!</p> <p>The PHC intervention, despite not showing statistical significance, is an important tool, which should be the object of further research with a larger sample.</p> <p>I suggest that authors provide more details about the PHC intervention in the manuscript introduction.</p>	<p>We have added about PHC intervention in the introduction section</p> <p>Recently, a coaching technique has been developed and applied in the health profession, including pharmacy health coaching (PHC) as a patient-centered approach by giving support, education, and feedback to increase awareness and motivation (Olsen, 2014). PHC prioritizes a two-way communication that is adjusted with the uniqueness of each individual (Lonie et al., 2017). Details about the PHC intervention model can be seen in previous studies (Haryono et al., 2022).</p>
<b><u>Optional/General</u></b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p> <p>Yes, according to the authors (item 2 of Implementation Stage), the patients agreed to participate in the research and had their data protected.</p>	<p>We have added the explanation in the implementation stage (item 2)</p> <p>The patients agreed to participate in the research and had their data protected.</p>
