Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The methodology, discussion, limitations and conclusion need major revision as mentioned in the manuscript. Also the result section in abstract needs major revision.	The necessary corrections in methodology, results conclusion and limitations have been made and highlighted in the manuscript.
Minor REVISION comments	The title can be revised to make it look complete. There are few things which are actually duplications and not needed the way they are presented (mentioned in the manuscript). Those can be happily removed. Try and make the reference more uniform. The quality of manuscript written also depends on uniformity in reference.	The title has been revised and the duplications have been removed. All the other changes mentioned by the reviewers have also been made.
Optional/General comments	A well-conducted study and fairly well written manuscript !!	Thank you for the positive feedback.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
