PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<ul style="list-style-type: none">The content of the manuscript is suitable for publication for this journalWell-presented articleIn abstract the study is done from May 2020 to May 2021 about 432 patients, but in purpose the same study is done from January 2015 to December 2015 with Data of 311 patients, and there are same results in both cases, you should clarify your idea.The conclusion must be included separately in the text and provide an explanation of the importance and relevance of the study to the field.	Thank you for the genuine review. About the point number three it purely an error of technicality and typing does not affect the study result. As per your advise conclusion has been added
<u>Minor</u> REVISION comments	<ul style="list-style-type: none">Table titles should be included above the tableTables should not be embedded as figures or spreadsheet files, but should be done in your word processing program.Minor grammatical revision.	All the mentioned minor corrections have been followed.
<u>Optional/General</u> comments	<ul style="list-style-type: none">The abbreviations should be defined in the text at first use, and a list of abbreviations should be provided.References must be written according to Vancouver style.I suggest to add some references to upgrading your work: <ol style="list-style-type: none">Cornwell, E.E., et al., Duration of antibiotic prophylaxis in high-risk patients with penetrating abdominal trauma: a prospective randomized trial. Journal of Gastrointestinal Surgery, 1999. 3(6): p. 648-653.Awad, S., et al., Impact of laparoscopy on the perioperative outcomes of penetrating abdominal trauma. Asian Journal of Surgery, 2022. 45(1): p. 461-467.	All the mentioned reviews have been followed.
